Global environmental strategy 2020

Sustainable agriculture

Greenhouse gas emissions

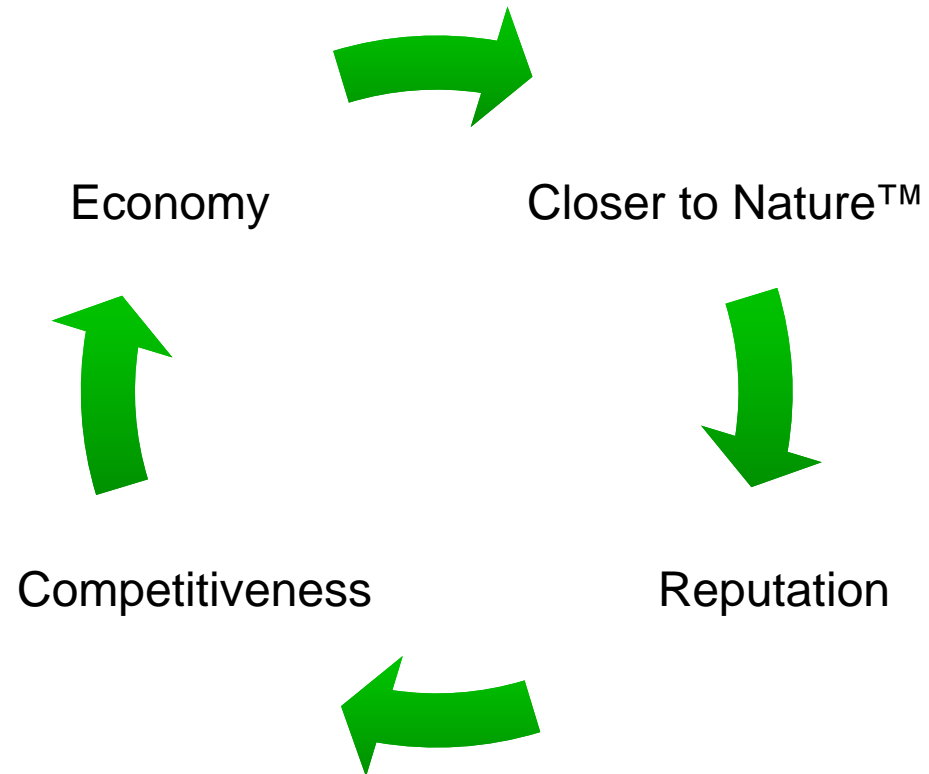

Water and energy

Zero waste

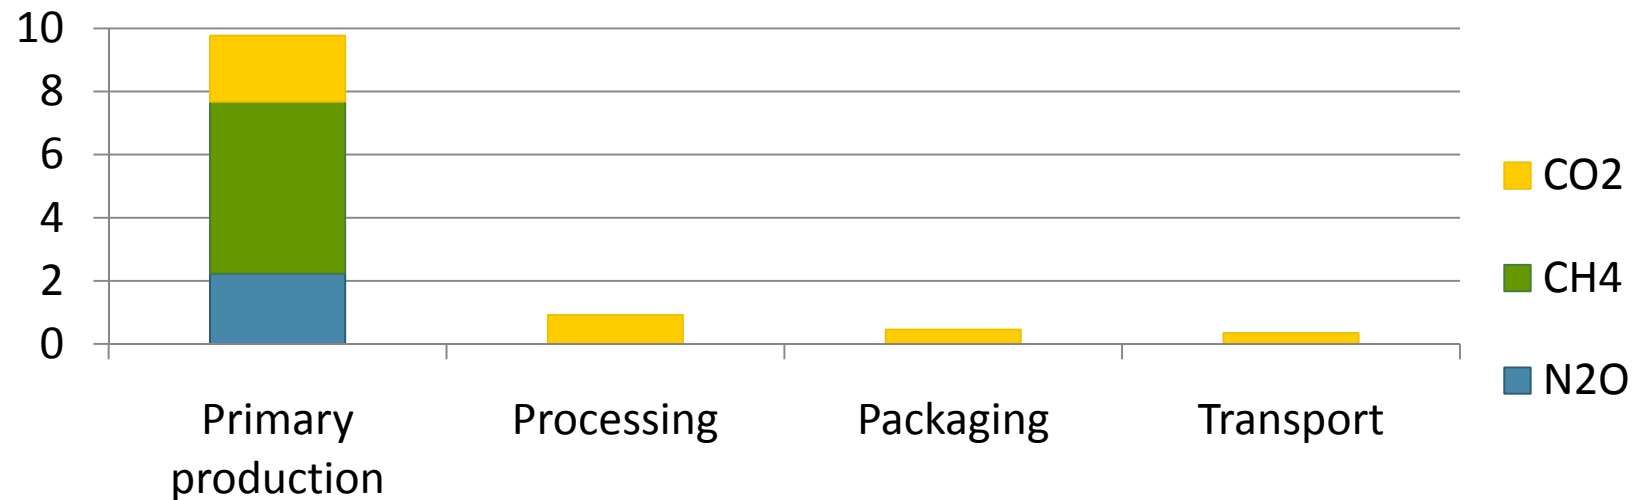

Sustainable agriculture – in the future

Reduce the contribution to climate impact

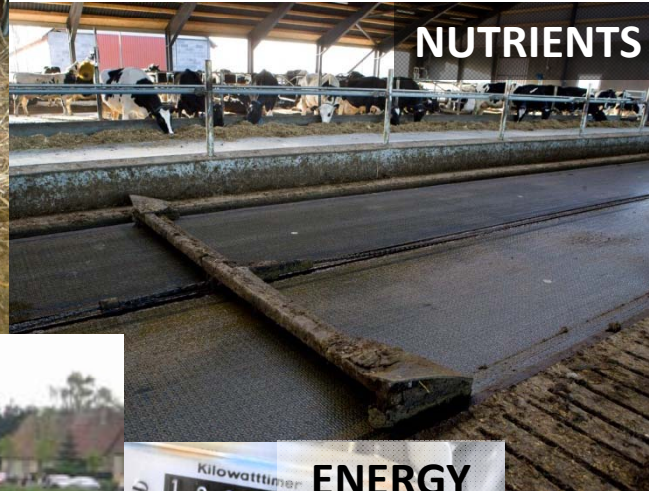

Million tonnes CO₂e

Note: CO₂e = (CO₂ x 1, CH₄ x 25, N₂O x 298)

Focus areas in primary production

Handling the challenges

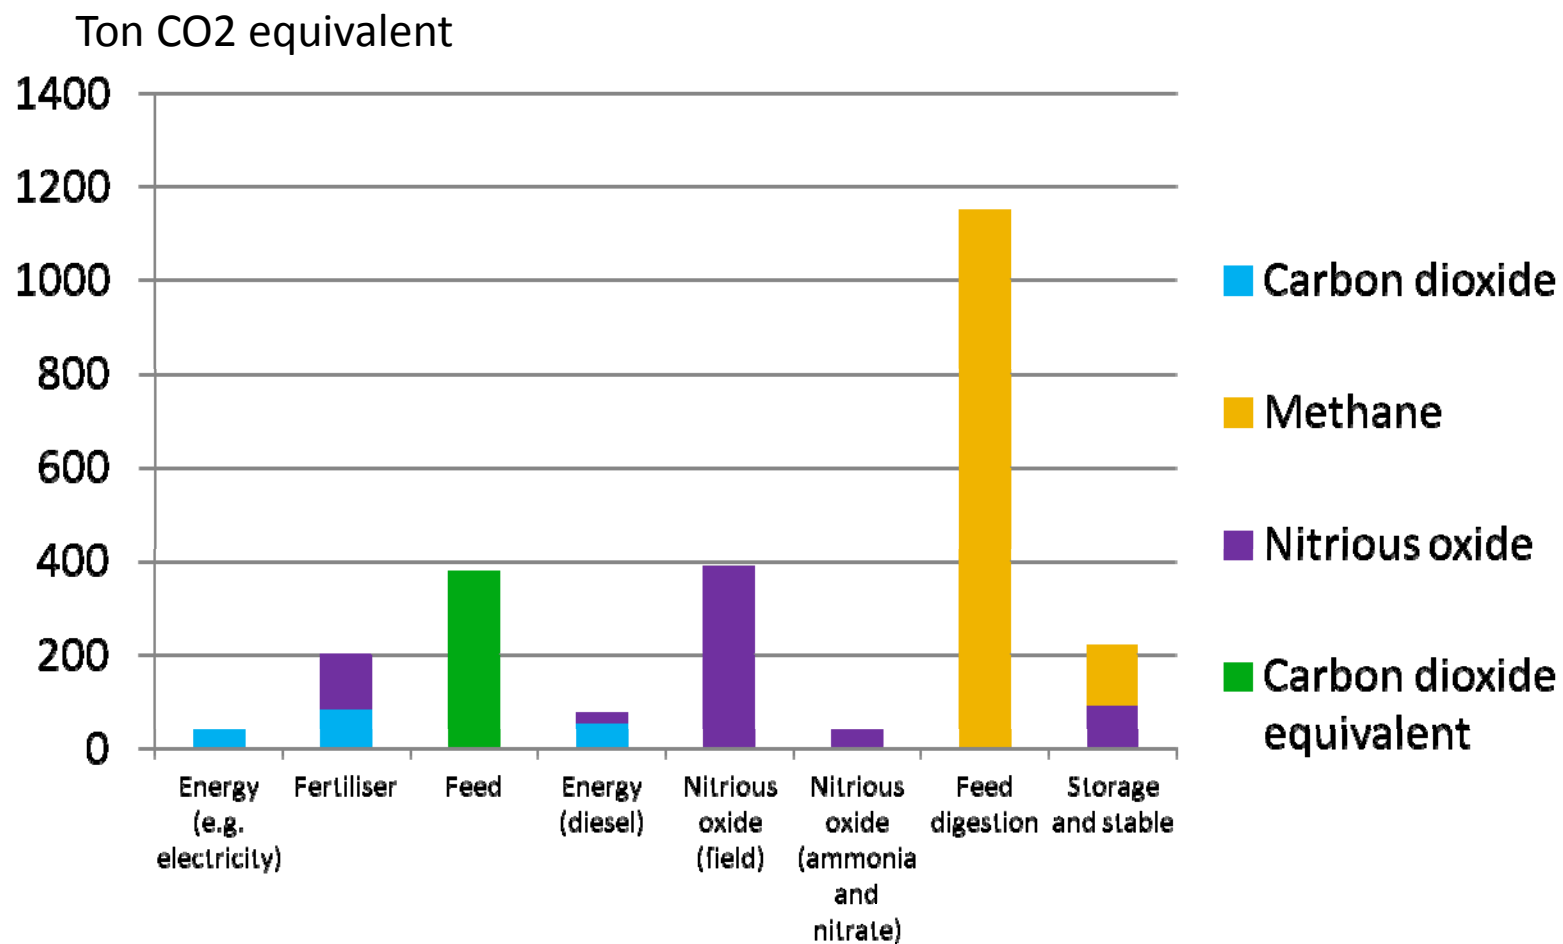

Climate check on my farm

Results on my farm

Follow up is key

Thank you
