

Regeringskansliet

"It should be attractive to live and work in rural areas. I see the green sector, rural development and regional growth as important components in creating jobs and growth throughout the country."

**Sven-Erik Bucht,  
Minister for Rural Affairs**

# How do we best use the natural resource "The Baltic Salmon"

- To create rural development
- To create regional growth
- To create jobs in the "green sector"

Ecological preservation- no fishing!

# Food- though commercial fishing

# Tourism industry- angling activities
