

The role of the Royal Swedish Academy of Agriculture and Forestry is to promote agriculture and forestry and related activities for the benefit of society, with the support of science and practical experience. The Academy was founded in 1811 at the initiative of Karl XIV Johan and started its work on 28 January 1813.

Seminar

Forestry in the new development frameworks CIFOR's Strategy 2016–2025

Time	Wednesday 15 June, at 10.00–13.00 am (registration and coffee from 09.30 am)
Venue	The Royal Swedish Academy of Agriculture and Forestry, Drottninggatan 95 B, Stockholm, Sweden
Registration	No later than 8 June via this link or through our website www.ksla.se (cancellations must be made no later than 13 June, or we will invoice SEK 500)
Fee	No fee
Questions	Content: Birgitta Naumburg, birgitta.naumburg@ksla.se , tel + 46 8 54547707 Registration: Gun Askerö, gun.askero@ksla.se , tel + 46 8 54547712
Web	The seminar is broadcast over the internet, link at www.ksla.se
Organizer	Center for International Forestry Research (CIFOR) in collaboration with the Royal Swedish Academy of Agriculture and Forestry (KSLA)

Millions of hectares of tropical forests have been converted to agriculture, degraded landscapes amount to nearly 2 billion hectares, and inequality has grown in countries around the world. Yet, there is reason to be optimistic: forest expansion and restoration are gaining ground, the rate of deforestation is slowing, and awareness of the importance of forests is spreading among governments, corporations and the global public.

In 2015, key developments such as the United Nation's 17 Sustainable Development Goals and the Paris Climate Agreement formed the basis of a new global development framework, at the forefront of which is forestry and landscapes. The Center for International Forestry Research (CIFOR) has developed a new strategy 2016–2025 which builds explicitly on this new framework, defining the ways in which CIFOR's forestry research, capacity development and engagement will provide opportunities to the emerging development agenda.

At this joint-seminar CIFOR's new strategy will be presented followed by a presentation of how the new development frameworks are addressed in Sweden.

A key proposition in CIFOR's new strategy is that forestry contributes significantly to each of the Sustainable Development Goals as well as to our efforts in dealing with climate change. Further, CIFOR suggest that forestry should be approached through integrated landscape approaches that bridge across traditional sectors. Defining forestry in this way may open up for interesting opportunities to broaden and enhance benefits on all levels. The CIFOR Strategy 2016–2025 is available [here](#).

The seminar will be held in Swedish.

Welcome!

Carl-Anders Helander
General Secretary and Managing Director, KSLA

Peter Holmgren
Director Center for International Forestry Research

Programme

Forestry in the new development frameworks CIFOR's Strategy 2016–2025

Wednesday 15 June 2016

Moderator Lisa Sennerby Forsse, President KSLA

09.30 **Coffee and registration**

10.00 **Welcome remarks**

Carl-Anders Helander, General Secretary and Managing Director, KSLA

10.10 **CIFOR's Strategy 2016–2025: Stepping up to the new climate and development agenda**

Peter Holmgren, Director General CIFOR

10.35 **Sweden's implementation of Agenda 2030**

Ingrid Petersson, Director General FORMAS, Member of the delegation for Sweden's implementation of Agenda 2030.

10.50 **Views and reflections from some stakeholders**

Johan Kuylenstierna, Executive Director, Stockholm Environment Institute, SEI
Olof Johansson, chef skogsskötsel och miljö, Sveaskog

11.00 **Discussion**

11.45 **Closing remarks**

Lisa Sennerby Forsse, President KSLA

12.00 **Mingle and networking**

Lighter food will be served
