

The Royal Swedish Academy of Forestry and Agriculture's mission is to promote agriculture and forestry and related activities with the support of science and practical experience for the benefit of society. The Academy was founded in 1811 on the initiative of Karl XIV Johan and began its work on 28 January 1813.

Academy Lunch Talks

Digital Lunch Talks with International Fellows 2026

The Academy will in short digital lunch talks introduce our international fellows and their work in order to inspire and disseminate information on well-known or less well-known research and sometimes hidden facts. Please find more information on each talk on www.ksla.se
